

# Solve your toughest challenges

A professional portfolio built for performance, efficiency, and confidence on site.

# Solve your toughest challenges

Partnering to develop solutions together

## + Insecticides

Reliable control across a wide range of treatment needs. This range combines fast action, residual performance, and application flexibility to support both routine and demanding pest management programs.

### Aqua-K-Othrine® Space Spray

A water-based space spray for the control of mosquitoes, flies, cockroaches, spiders, and stored product pests. Its EW formulation with built-in FFAST technology helps deliver effective performance with a low odour profile.

### Astro® Aerosol

A ready-to-use aerosol designed for crawling insects, offering three functions in one product: flushing, fast knockdown, and residual surface control. A practical option when speed and convenience matter.

### Biflex® AquaMax

A water-based insecticide and termiticide for internal and external use around domestic and commercial buildings. Suitable for professionals seeking broad application flexibility across urban pest situations.

### Biflex® Ultra

A broad-spectrum, long-residual liquid insecticide and termiticide formulated for internal and external treatments. Designed to support reliable urban pest control and protection against subterranean termite damage.

### Brigade®

A ready-to-use granular insecticide developed for professional pest management. Its non-staining, non-phytotoxic sand-based formulation offers a practical option where simple application is important.

### Cislin® 25

A premium deltamethrin suspension concentrate for general insect pest control across a wide range of treatment situations. Designed for professionals who need a strong knockdown with dependable residual activity.

### Coopex® Dusting Powder

A ready-to-use broad-spectrum dust for insect control across multiple pest situations, including cockroaches, silverfish, ants, fleas, bed bugs, spiders, and more. Its waterproof formulation supports lasting performance where a dusting treatment is preferred.

### Suspend® Flexx

An innovative general insecticide featuring patented Partix™ Formulation Technology, developed to improve the availability of the active ingredient on treated surfaces. Designed to support residual effectiveness and flexible use rates across broad pest programs.

### Temprid® 75

A dual-active general insecticide combining beta-cyfluthrin and imidacloprid for broad control across common insect pests. A strong choice where fast action and lasting performance are both required.

## + Rodenticides

Simple, effective rodent control for fast response situations. This range is designed to deliver dependable results with a highly palatable bait formulation suitable for professional use.

### Rodilon® Pro

A ready-to-use soft block rodenticide formulated for the effective control of rats and mice. Its highly palatable single-feed format supports confident performance in professional rodent management programs.

## + Gel & Liquid Baits

Smart baiting solutions for ongoing control and targeted treatment strategies. This range supports maintenance work, clean-outs, and species-specific baiting with formulations designed to remain attractive and effective over time.

### **Maxforce® Activ**

A cockroach gel developed to stay palatable for extended periods, supporting Total Life Cycle control in maintenance applications. Designed to help professionals maintain bait acceptance over time.

### **Maxforce® Fusion**

A next-generation cockroach gel for the control of large and small cockroaches, including nymphs. Developed to support Total Life Cycle control in initial and clear-out treatments.

### **Maxforce® Gold**

A cockroach gel formulated with a balanced bait matrix to appeal to a wide range of cockroach feeding preferences. Recommended for clean-out jobs where fast, effective bait acceptance is critical.

### **Maxforce® Quantum**

A viscous liquid ant bait made with 99.9% naturally derived ingredients. Designed for rapid ant control in and around the home, with performance that supports ongoing bait transfer back to the nest.

## + Termite Management

Protection solutions for both active termite colony control and long-term building protection. The Envu termite range supports flexible treatment strategies across colony control and pre/post construction Termite Management Systems to support Australians challenging termite pressure and property designs.

### **Agenda®**

A professional termite bait designed for practical on-site use in a ready to use foil bait pouch. Developed to simplify installation, improve efficiency, and support effective termite aggregation and control.

### **Biflex® AquaMax and Ultra**

See the insecticides section for water-based and Emulsifiable Concentrate termiticide options suitable for professional termite management programs.

### **Premise® 200 SC Termiticide**

A soil-applied liquid termiticide designed to provide long-term protection of the home. A non-repellent, water-based option for professionals seeking effective termite eradication and treated-zone performance.

### **HomeGuard®**

A pre-construction termite management system that combines physical barrier technology with an insecticidal component. Manufactured in Australia, it is designed to provide long-term protection across critical construction elements.

### **Kordon® Termite System**

A flexible building protection system that provides a combined physical and repellent termite barrier. Designed to accommodate complex building details while supporting under-slab termite and moisture membrane protection.

# Portfolio Guide

Use the guide below to compare active ingredients, target pests, formulation types, application environments, and key product benefits across the Envu portfolio. It is designed to help you identify the right fit for the treatment objective, site condition, and pest pressure you are managing.

Product	Active	Target Pests											Formulation	Application		Safety/Schedule	Key Benefit	Highlight
		Cockroach	Spiders	Ant	Silverfish	Mosquito	Termite	Rodent	Bed Bug	Fleas	Stored Pest	Internal		External				
Agenda®	1 g/kg Chlorfluzuron						•						Ready-to- use pouch	•	•	Non-scheduled	chitin synthesis inhibitor	No Mixing or handling required. Attractive bait matrix delivers proven colony control
Aqua-K-Othrine®	20g/L Deltamethrin 250g/L Hydrocarbon	•	•			•						•	Water-based	•	•	3A	FFAST technology	Low odour, Low environmental impact and high level of safety
Astro® Aerosol	10 g/kg Permethrin	•	•	•	•								Ready to use Aerosol	•	•	3A	HACCP approved	Flushing, Knockdown and long-lasting residual
Biflex® AquaMax	100 g/L Bifenthrin	•	•	•		•	•					•	Water-based - SC	•	•	3A	CertMark Approved	The water-based formulation is non-staining, odourless, non-sensitizing and non-allergenic
Biflex® Ultra	100 g/L Bifenthrin	•	•	•		•	•					•	Emulsifiable Concentrate - EC	•	•	3A	CertMark Approved	Broad spectrum, long residual, liquid insecticide and termiticide
Brigade® Granular	2 g/kg Bifenthrin			•									Granular Insecticide		•	3A	Ready to Use	non-staining, non-phytotoxic ready-to-use sand-based granule
Cislin® 25	25 g/L Deltamethrin	•	•	•	•	•				•	•	•	Water-based - SC	•	•	3A	HACCP approved	Excellent knockdown and residual activity
Coopex®	10 g/kg Permethrin	•	•	•	•		•			•	•		Ready to use Dusting Powder	•	•	3A	Fast knockdown, long residual	Ready-to-use broad spectrum insecticide with a unique waterproof formulation
Dragnet®	20 g/kg Permethrin	•	•	•	•		•			•	•		Ready to use Dusting Powder	•	•	3A	Fast knockdown, long residual	Superfine formulation gives excellent coverage and spread
Maxforce® Activ	10 g/kg Clothianidin	•											Ready to use Cockroach Gel	•		4A	BlueBead TLC tech	Highly palatable matrix, remains effective after 12 months on surfaces (maintenance applications)
Maxforce® Fusion	21.5 g/kg Imidacloprid	•											Ready to use Cockroach Gel	•		4A	BlueBead TLC tech	Next generation gel against cockroaches large, small and nymphs (Initial and Clear out applications)
Maxforce® Gold	0.3 g/kg Fipronil	•											Ready to use Cockroach Gel	•		2B	Fast results	Highly Palatable with proven domino effect. (Initial and Clear out applications)
Maxforce® Quantum	0.3 g/kg Imidacloprid			•									Ready to use Liquid Ant Bait	•	•	4A	HVL Technology	Rapid control on ant species, Ants take the bait back to the nest. Remains effective for up to 3 months
Premise® SC200	200 g/L Imidacloprid						•						Water-based - SC		•	4A	Non-repellent treated zone	No odour, no irritancy and is a water-based formulation which can be applied at low rates.
Rodilon® Pro	0.025 g/kg Difethialone									•			Ready to use bait-Soft Block	•	•	S6	Single feed rodenticide	Highly palatable formulation equally as effective on rats and mice
Suspend® Flexx	25 g/L Deltamethrin	•	•	•	•	•				•	•	•	Water-based - SC	•	•	3A	Partix™ technology	Long lasting residual, Broad spectrum of activity and flexibility of rates
Temprid® 75	Beta-Cyfluthrin & Imidacloprid	•	•	•	•	•				•	•	•	Water-based - SC	•	•	3A & 4A	HAS Technology	Dual mode of action and Unique fast action with long residual,
