

# The new Dynamic Duo in bareground weed control

Put them together and leave nothing behind.

For effective bareground control, you need the dynamic combination of Method and Esplanade. Method provides an effective herbicide for broadleaf and brush control and Esplanade delivers long-lasting residual activity against tough weeds and grasses.

# The new Dynamic Duo in bareground weed control

## The new standard in weed control

A spray program using Method & Esplanade delivers the broadest-spectrum, longest-lasting weed control on the market. Developed specifically for the industrial Vegetation Management Industry, Esplanade & Method are advancing weed control.

- Provides greater efficacy compared to other competitive offerings
- Outstanding pre & post-emergent control for difficult to control and invasive weed species such as patersons curse, fleabane, annual ryegrass and other grass and broad leaf species
- Two modes of action to combat weed herbicide resistance
- Increases profitability and efficiency by reducing treatments

## Excellent weed control can lead to increased sustainability, safety, productivity and cost savings

The combination of Esplanade and Method requires less active ingredient on the ground, which means more value for you and your customers while giving you a more sustainable option.

- Convenient packaging
- Odourless formulation
- Non-staining to surfaces, leaving no residues
- Easy to transport, mix and apply
- Improves productivity by reducing the need for re-treatment caused by resistant weed escapes

### TANK MIX SCENARIOS

	Residual Bare Ground Applications			
	Industrial Sites		Urban/Sensitive Sites	
<i>Scenario</i>	Pre-emergent & early post-emergent annual grass & broadleaf weeds	Pre-emergent & post-emergent annual grass & broadleaf weeds & brush weeds	<b>Crack &amp; Crevice:</b> pre-emergent weed annual grass and broadleaf weeds	Sensitive sites with heavy weed pressure on gravel or soil (poles, fencelines etc or near residential or commercial areas)
<i>Tank Mix Suggestion</i>	Esplanade + Method + Choice of post-emergent	Esplanade + Method + Choice of post-emergent	Esplanade + Choice of post-emergent	Esplanade + Choice of post-emergent
