Method EOFY offer!

Method® 240SL is a breakthrough post-emergent herbicide registered for the control of more than 40 invasive broadleaf, brush and woody weeds, including Lantana, Prickly Acacia and Sticky Nightshade. Method's diesel-free, flexible application options support efficient weed management, reducing re-treatment and improving pasture productivity across pastoral, conservation and grazing land. Protect the land you rely on with Method® 240SL herbicide.

Pre-order **Method® 240SL 946L IBC for \$96,000 (ex GST)** and receive 5% off - representing a saving of \$4,800!

Bonus! Every IBC purchase includes complimentary 12-month access to RangeView satellite-based farm mapping platform, as part of our new Australian pilot program. Access includes RangeView analysis, personal dashboard setup, onboarding and adoption support.

Connect with your preferred agent to place your pre-order today.

T&C: Pre-order Method® 240SL 946L IBC for \$96,000 (ex GST) and receive 5% off. Offer valid on pre-order purchases made from 1 May 2026 until 30 June 2026. The 5% discount will be applied to the standard \$96,000 ex GST price. Orders will be delivered in September 2026. Additional 30-day payment terms are available through participating agents and subject to agent approval. Purchasers will receive complimentary 12-month access to RangeView, full details provided upon purchase. This offer may be withdrawn or amended without notice. For more information on Method 240SL, please visit <https://www.au.envu.com/vegetation-management/method-240-sl-resource-centre> or speak to your preferred agent.
