SECTION 2. HAZARDS IDENTIFICATION

GHS Classification Skin sensitisation	:	Category 1
GHS label elements Hazard pictograms	:	
Signal word	:	Warning
Hazard statements	:	H317 May cause an allergic skin reaction.
Precautionary statements	:	 Prevention: P261 Avoid breathing mist or vapours. P272 Contaminated work clothing should not be allowed out of the workplace. P280 Wear protective gloves. Response: P302 + P352 IF ON SKIN: Wash with plenty of water.

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	30.11.2023	11291692-00001	Date of first issue: 30.11.2023

P321 Specific treatment (see supplemental first aid instructions on this label).
P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards which do not result in classification

Cutaneous sensations may occur, such as burning or stinging on the face and mucosae. However, these sensations cause no lesions and are of a transitory nature (max. 24 hours).

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture	:	Mixture
---------------------	---	---------

Chemical nature : Suspo-emulsion (SE)

Components

Chemical name	CAS-No.	Concentration (% w/w)
2-(2-Butoxyethoxy)ethyl 6-propylpiperonyl ether	51-03-6	< 10
(Piperonyl butoxide/PBO)		
Propylene glycol	57-55-6	< 10
Hydrocarbons, C12-C16, isoalkanes, cyclics,	Not Assigned	>= 1 -< 10
<2% aromatics		
Deltamethrin	52918-63-5	< 10
Tetramethrin	7696-12-0	< 1
Reaction mass of: 5-chloro-2-methyl-4-	55965-84-9	>= 0.0015 -< 0.06
isothiazolin-3-one [EC no. 247-500-7] and 2-		
methyl-2H-isothiazol-3-one [EC no. 220-239-6]		
(3:1)		

Alternative CAS Numbers for some regions

Chemical name	Alternative CAS Number(s)
Reaction mass of: 5-chloro-2-methyl-4-	2682-20-4, 26172-55-4
isothiazolin-3-one [EC no. 247-500-7] and 2-	
methyl-2H-isothiazol-3-one [EC no. 220-239-6]	
(3:1)	

SECTION 4. FIRST AID MEASURES

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air.

Version 1.0	Revision Date: 30.11.2023		0S Number: 291692-00001	Date of last issue: - Date of first issue: 30.11.2023
In o	case of skin contact	:	of water. Remove contami Get medical atte Wash clothing be	et, immediately flush skin with soap and plenty nated clothing and shoes. ntion. efore reuse.
In o	case of eye contact	:	Flush eyes with	n shoes before reuse. water as a precaution. ntion if irritation develops and persists.
lf s	wallowed	:	Get medical atte	NOT induce vomiting. ntion. roughly with water.
and	st important symptoms d effects, both acute and ayed	:	This product con	rtion n lergic skin reaction. tains a pyrethroid. hing should not be confused with carbamate
Pro	otection of first-aiders	:	and use the reco	ers should pay attention to self-protection, mmended personal protective equipment al for exposure exists (see section 8).
Not	tes to physician	:	cant amount (mo minister activated	ically. not normally required. However, if a signifi- re than a mouthful) has been ingested, ad- t charcoal and sodium sulphate. g (Electrocardiogram).

	Hazche	m Code	:	•3Z	

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
Environmental precautions	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	Soak up with inert absorbent material. For large spills, provide dyking or other appropriate contain- ment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter-

Aspiration toxicity

Not classified based on available information.

Components:

Hydrocarbons, C12-C16, isoalkanes, cyclics, <2% aromatics:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

2-(2-Butoxyethoxy)ethyl 6-pro	ор	ylpiperonyl ether (Piperonyl butoxide/PBO):
Toxicity to fish	:	LC50 (Cyprinodon variegatus (sheepshead minnow)): 3.94 mg/l Exposure time: 96 h
		Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia magna (Water flea)): 0.51 mg/l Exposure time: 48 h Method: OECD Test Guideline 202

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
