envu™ Professional
Pest Management

Reduce scorpion callbacks with trusted, powerful control

- + Blended dual-action formula delivers consistent exposure with two active ingredients for fast knockdown and long-lasting control
- + A Scottsdale, Arizona, pest management professional reduced his scorpion callbacks by 87% after switching to Temprid® FX insecticide¹
- + Temprid FX insecticide can be used indoors and outdoors on over 50 other tough pests including bedbugs and spiders

“There are not many pests that invoke such fear as the scorpion. The region we serve experiences a tremendous amount of scorpion pressure, so naturally we needed a product that would satisfy control of that specific activity. Our feedback from our customer base has been overwhelmingly positive following the implementation of Temprid FX insecticide.”

– Nathan Watters, President
Cummings Termite & Pest, Fountain Hills, AZ

Scorpion treatment tips

- + Apply as a perimeter treatment to exterior walls and adjacent soil
- + Focus on known or suspected harborage areas
- + Apply spot treatments into access points like cracks, crevices and weep holes
- + Advise property owners to remove piles of debris and building materials near exterior walls
- + Incorporate other beneficial treatment methods where appropriate (i.e., dusting and granular baiting)
