One portfolio for all your detection and treatment needs

Our suite of bed bug solutions was designed with pest management professionals in mind. Our products offer you the confidence, control and coverage you need to detect and treat any size of infestation quickly and effectively.

Our suite of solutions

1

Confidence

Identify even low-level infestations with over 90% accuracy* with the first-of-its-kind, scientifically based bed bug detection test.

+ Easy to use: Just swab, activate and detect + Get results in five minutes

2

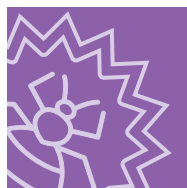

Control

Take out bed bugs and their eggs quickly and easily with Temprid® FX insecticide's blended technology, designed to deliver dual action.

+ Can prevent bed bug infestations for up to six months + The #1 product for treating bed bug infestations**

3

Coverage

Coming soon, a new dust product works in hard-to-reach places by delivering fast knockdown and long-lasting control in spaces where liquid sprays fall short.

+ Expected to launch in 2024
